

Best Practice – 2

Name of the Best Practice: - Annual exhibition

Date & venue: – 27, 28,29 April 2018

Outcomes of Best Practice: -

- While designing & executing the setups in exhibition classrooms as per the theme of event students get an opportunity to design the small sets & later workout the execution process for the same by working in groups, which is the outcome desired by the college authority.
- Most importantly they get the big platform to show up their work done in academic year, which is the main goal of conducting annual exhibition where their work gets appreciated & examined by professionals as well as learners & their fellow seniors & juniors.
- Students become more responsible & sensible towards how to present their work in front of other people.
- The level of creativity is increased here by one step as compared to other activities held in college throughout the year, as this event expects students to be responsible, creative, coordinating, having keen eye on execution of set designs etc.
- In the presentation by chief guests or ex-students of college the current students get to know designing & execution as well as the thought process behind the award winning/well known projects in interior.
- This thorough process helps to mold the personality of future interior designer as a bold, open minded, coordinating, who's having clear thought process about how to execute the different types of work.

1. Description of activity:

- In the 2nd semester of academic year in the month of March student's committee of exhibition organizes the Annual exhibition for the span of 3 days.

- In which the 1st to 4th year students get the chance to put up best of their work done throughout the year on the big panels which will later get examined & appreciated by various professional personalities.
- Firstly, the theme for the exhibition gets decided by the college exhibition committee & the principal, after that students have given 3 days of time span right before the exhibition event in which they design their own classrooms according to the theme & creates the appropriate surrounding to put up their various types of work including extra curriculum activities done by each classroom,
- Also space to hang or to place their artefacts, panels to put up best of their project work done on sheets etc.
- Felicitation ceremony of chief guests followed by their speech addressing the students takes place. After that Inauguration of annual exhibition takes place.
- Chief guests along with principal have a keen look at whole exhibition, where selective students from each class describes their work to the guests.
- After that the exhibition is open for public.
- There is presentation program of chief guest's work (If he/she is from the architecture/interior field) or of the ex-student of college who has achieved sound knowledge & name in the professional work field.

2. Activity Experience:

a. Outcome wise description of observations/explanations

- While working in groups they do self-assessment of their thoughts & work on their ideas of execution the same. All this gets done in groups helps them to become socially active human being.
- They get to know good things & flaws present in their work by various peoples.
- Students do the work of various types to achieve the desired outcome necessary for the exhibition, like they must have creative vision while designing their exhibition areas as well as technical knowledge about execution & after that they use the r communication skills while presenting the work in front of third persons.

- The main concept behind conducting the exhibition is to provide the bigger platform for the students to put up their work done in academic year in front of others.
- To achieve the full fleshed execution of exhibition sets is done by combining both artistic as well as technical methods. Application of observation/experience in professional life/work.
- The platform like exhibition gives a bright chance to students to get their work recognized by professionals, hence those who have done good work may get a chance to work with their desirable Architect/Interior designer in future or in near times.
- Application of leadership skills, creative self-expressions & sense of using various materials as per the need of situation develops into students at this stage which will prove to be helpful for them after becoming the interior designers. Improved communication skill is another outcome to expect here which is a must in today's professional work field as well as day to day life.
- To sum up in short we can say that this thorough process can be called as a grooming session for students as it proves to be challenging yet full of exposure event.
- Because of combining various types of work in one event the outcome achieved from it also becomes wide.
- Which results into an important event to conduct every year and hence it becomes impactful & necessary for student's personality development.
