

# ACTIVITY REPORT

---

1. **Title of Activity:** Extra curriculum activity  
Seminar on Magic of software's by- Ar. Abhay Kulkarni.
2. **Date & venue:** – 27 December 2019.  
Kalaprabodhini's institute of design,  
Kolhapur.
3. **Outcomes of activity:**
  - The main motto was to introduce the various types of software's are used for Interior Design.
  - Learning something new which is related to software for implementing in their presentation techniques as well as fast doing submission works.
  - Students got to know the digitization and advanced technologies have taken over the Interior as well as architectural world which make it a competitive field!
  - To bridge the gap between academic and industry through training and also create awareness of what the perks of each software are. And also to reach out globally for Interior and architectural skill development through innovative CAD technological advancement.
  - As an outcome of the workshop is proved to be helpful in improving quality of design as well as drawing of students.
  - Getting presentation of 4 different types of software's like Auto Cad 2D & 3D, Lumion, In design, sketch up etc. face to face tips & guidance from Ar. Abhay Kulkarni sir was a dream coming true for everyone out there which boosted the enthusiasm towards Presenting their own drawing.
4. **Description of activity:**
  - Warm welcome of the external visitor & conductor of the Seminar the veteran Ar. Abhay Kulkarni sir & his introduction by the Ar. Kedar Kulkarni.
  - Students got addressed by Ar. Abhay Kulkarni sir regarding Seminar.
  - Students get lots of ideas regarding trends interior design in overall world.
  - Ar. Abhay Kulkarni sir also gives the some information about himself. He graduated in the year 1989, in an era when we would only hear talks about drawings being produced on computers in the US to a situation where every Architectural and Interior designer student is carrying a Laptop and a Tablet instead of sheets.
  - He also said that at ArKiSmart you are a "student" only till the point where you've mastered what we have to offer, after that you are a part of the ever evolving process of mastering new skills and software's for a lifetime. You are a part of a group which believes in living in the present, openly accepting the inevitable change and moving on by learning, sharing and teaching the software's and technologies we come across to one another.
  - Ar. Abhay Kulkarni sir show all drawings, perspective views do it in different software's.
  - Students got the opportunity to share same platform along with veteran Interior Designer which resulted into production of good quality work by the beginners & also got appraisal for the same from Ar. Abhay Kulkarni sir

**5. Activity Experience:**

**a. Outcome wise description of observations/explanations**

- To learn the new digitization and advanced technologies regarding their course.
- Also learning how to do the work in less time in different software which is not only beneficial in interior designing field but also in day to day life.
- Students also tried their hands on making their design projects.

**b. The concept/principles/procedures learn as the result of activity**

- The primary concept behind conducting this seminar was to introduce the types of software's in market for students.
- The seminar on Magic's of software is improving & enhancing the designs skills & thinking way of students.
- Whichever art students may learn but they should get stimulated mentally on how to implement these in their design projects, professional work & day to day life.

**c. Application of observation/experience in professional life/work**

- Presentation techniques can be used in various interior designing projects where students can design their work spaces with the help of this art in various ways.
- Some of them may find it interesting & later may develop these skills on professional front also they can apply these skills while doing interior projects. It may become their hobby or extra source of income.

**d. Summary & conclusion**

- The seminar proved to be new learning experience for the students, where they got the chance to interact with professional person & got to learn the way of designing which will prove to be helpful for them in professional as well as education level.

**6. Assessment of activity outcomes:**

- Learning how to analyzing the projects & trends, which software's are available in market for easy work in less time before starting the work which can be used in day to day life proved to be beneficial as after the seminar students started developing their skills in various projects by themselves.
