

ACTIVITY REPORT

1. **Title of Activity:** Landscape design competition held by “Garden club” at Kolhapur.

Date & venue: 23 November 2018 – At Tarabai Garden , Kolhapur.

2. **Outcomes of activity:**

- To develop competitive quality and nature which is important part of their profession.
- To develop team work quality amongst the students.
- To develop 3 dimensional view and execution of their design in actual in limited time with limited space in a given brief.
- To develop use of plants variety and material.

3. **Description of activity:**

- The completion brief was declared two days before the date, so as per two groups are made for completion by students itself.
- The brief was to develop a design which also gives a message to the society.
- For this they had given 12’x12’ space in “Tarabi Garden” where they have to execute this design in reality .
- For this execution they have allotted 5 hours ie from 12 am to 5 pm .
- The task is very challenging because students are going to experience for the first time such a kind of hands on project .
- From the selection and purchasing of plants and materials, and transportation students had worked their own.
- Ar Kedar kulkarni had given support and guide them for the whole process.
- The two type of designs had been successfully executed by two groups within their stipulated time given by the club.

4. **Activity Experience:**

- **Students actively participated in this competition and given great efforts for execution of this event.**

5.

- a. Outcome wise description of observations/explanations
 - As per brief , two design have been executed on same brief.so competitive nature has been developed between the students.
 - They involve very enthusiastically in competition and work together.
 - Because of on site execution , they understand 3 dimensional study of design.
- b. The concept/principles/procedures learn as the result of activity
 - The best result of this competition is our students got 1st and 2nd award for this competition.
