

ACTIVITY REPORT

1. Title of Activity: *A Seminar on Atomization in electrical Services*
by Eng. Ashwin Hegade.

2. Date & venue: : 5 January 2019
: Kalaprabodhinis institute of interior Design

3. Outcomes of activity:

- To interact with specialized Atomization in electrical services consultants
- To Understand role of advanced services while interior designing .
- New technologies in market.
- To know the planning aspects of electrical wiring and Atomization.
- Calculation of Atomization estimate.

4. Description of activity:

- To understand importance of atomization system in luxurious residential bungalow and flats interior, for students in services subject ,our college organized A one day Seminar on electrical services by Eng. Ashwin Hegade. on the date of 5 January 2019
- The seminar was started with welcome & felicitation of Eng. Ashwin Hegade. ,by Principle. Ar.Girija Kulkarni.
- Then our guest speaker started their A.V. presentation on respected subject.
- First they explain the basic principle of electrical layout and how to work on atomization in the drawing.
- After that they explain different wiring and wiring system.
- They explain different ways of planning and planning considerations in atomization electrical layout with some case studies.
- Their slides also explain different layout in Auto CAD drawings with live case studies.
- Then there is question and answer session is done.
- Students had actively participated in this session.
- The seminar was concluded with vote of thanks both by the expert and students.

5. Activity Experience:

a. Outcome wise description of observations/explanations

- Electrical wiring layout is very important from services point of view.
- Guest speaker also had some samples with them, so student can handle and saw the detail part .
- He explains some tumbrel for calculation of estimate of wiring.

b. The concept/principles/procedures learn as the result of activity

- Students are now aware about different wiring and wiring systems used in commercial and residential area.
- They understand the role of designer and have to handle such different consultant during designing and during execution of an interior project.

6. Assessment of activity outcomes:

- Students interact with expert and share their design and discuss the solution related to wiring systems.
- They explain how an electrical layout can change interior effect.
- Now students understand what are detailing and what are consideration should be taken while making an interior of commercial project.

7. Photographs

Explain the full detail atomization plan by Ashwin Hegde
